CDR (CARBON DIOXIDE REMOVAL) CREDITS TRACKING

The Carbon Capture industry to this point has been rife with inaccuracies and out right fraud.

90% of Brazil's Carbon Credits were Fake, They were existing only on Spreadsheet's.

Two-year action plan

A photograph of two men standing in a lush green forest. The man on the left is wearing a white vest over a dark long-sleeved shirt and blue jeans, leaning against a tree trunk. The man on the right is wearing a black t-shirt and blue jeans, also leaning against a tree trunk. They are both smiling and making peace signs. The forest is filled with tall, thin trees and a dense canopy of green leaves. Sunlight filters through the trees, creating dappled shadows on the ground. In the background, a few cows are visible grazing in a clearing.
